Young Resigns as Police Chief When Gen. Black Overrules Him

BY ORVÎLE DWYER

HERRIN, Feb. 11.—As the Chiand Thirty-second Infantry detrained into this turbulent little sterm center of crimson, Williamson county today, the municipal administration again changed hands. Sheriff George Galligan was reported to have been spirited With Doheny out of the county under mysterious auspices and Maj.-Gen. Milton J. Foreman prepared to give the people here their first real esson in military discipline.

At the same time a Coroner's in-quest developed the events of last Friday night which ended in the murder of Constable Caesar Cagle. put Deputy Sheriff John Layman in the hospital dangerously wounded and plunged the county once more under military rule. At the same time a Coroner's in

BARS RESIGNATIONS

What the resolution really accomplishes, however, is to make it very difficult if not impossible for the President to accept the resignations of Secretary Denby and Atty.-Gen. Daugherty, even if they were tendered. The President is fully conscious of the fact that ware either of these two men to leave the Cabinet under the sort of fire that is now directed at them it would be equivalent to an admission of guilt on their part and by indirection, a confession by the administration that it had held the two in office longer than it should. Further than this President Coolidge's own sense of justice. the two in office longer than it should. Further than this President Coolidge's own sense of justice recoils from the thought of condemning and disgracing government officers against whom nothing involving moral turpitude has been proved or even directly charged. No doubt the President realizes that this may make more difficult his candidacy for the Presidential nomination and elections. WOODS ARE GUESTS

Come more noticeable recently.

He is a wonderfully able man, and the Army, which once was of one opinion against his promotion, almost concedes to a man now that he is the ablest soldier in it. The President thinks he is one of the most remarkable men of this period and resents most bitterly the suggestion that he stands by him merely because he was colonel of the Rough Riders. Mrs. Wood is gracious and charming and always well-poised.

Your affectionate brother.

ARCHIBALD.

CAPT. BUTT TO HIS SISTER-IN-LAW

IN-LAW

WASHINGTON, Nov. 18, 1908.
Dear Clara:
The luncheon at the White House today was very stupid, but the remainder of the afternoon proved to be very pleasant. In the first place there were four Abbotts at the table. I went into the dining-room while Miss Hagner was placing the cards at the plates and read off the names of the guests on the chart, and when the last Abbott was read out I asked:
"Why all the Abbotts?"
"They are the owners of the Outlook and the family are getting acquainted with them en masse." she said, laughing.

The Abbotts own the Outlook and the President has chosen that magazine as the purveyor of his thoughts in the coming years. Incidentally, he reaps a rich harvest from it, but he has got to do something and, as he says, writing seems to be about the most harmless thing he can do. He said it is no longer "Oh, that mine enemy would write a book," but "Oh, that mine enemy would write a book," but "Oh, that mine enemy would write for the magazines!"

In the early days the Chinese would take clear pebble stones and polish them down and use them for eye glasses. They were quite successful, too. Times have changed now. Science has advanced to that point where particular people insist upon having an Oculist's examination, knowing that the best is sens too good for the eyes.

If I always try to be reasonable in my tharges. No "drops" used. Some of your neighbors are wearing glasses I fitted.

C. N. HOPKINS, M.D.

HIS MAGAZINES

However, all the Abbotts have characters and fairly sizele with convictions. They are great social purists and so their magazine makes a good medium for the President. He has chosen the Scribner for all his hunting and African stories, although he was offered much more inoney by some of the other magazines. Mr. Bridges, its editor, was the publisher the President wanted me to meet. I had little chance to talk to him, but the little I saw of him impressed me most favorably. me most favorably.

Gen. and Mrs. Wood were there and they are always pleasant to meet. The ranking lady was an ancient dowager from New York.

Ship Refuses to Permit Party to Board

Washington Consent to Take Off Officer Ignored

NEW YORK, Feb. 11.—Lieut. he German government after six months' imprisonment for an at-tempt to capture Grover Cleveland Bergdoll, the draft evader, arrived n New York today, but plans for

Due to what Commodore Thom-Due to what Commodore Thomas Kler, captain of the Albert Ballin, terms "a misunderstanding,"
but what Dr. James Whitney Hall,
chairman of the national reception
committee, calls "another German
affront toward the government,"
several hundred persons shivered
for hours on a Battery pler, where
they had gathered to greet Lieut.
Griffs. Hall.

After circling the liner with the band playing "The Star Spangled Banner," the Macon drew along-side the gigantic German ship, but the gangway was down and the liner was in motion. The wei-coming craft, its band stilled, trailed it into its berth. Capt. Kler said he was not notified that Grifns was to be taken off.

PARTY IGNORED PARTY IGNORED

The Macon, the official welcoming craft of the city, with the
street cleaners band playing and
flags flying, sailed confidently down
the bay to quarantine to pick up
the man who tried to bring Bergdoll back to America. Aboard
were Lieut. Griffis's parents, relatives, American Legion men
and officials of the national reception committee. Consent from
Washington to take Lieut. Oriffis At the North River Pier another hitch occurred. Passengers on the Macon who rushed up the gangway were not allowed to board the Albert Ballin. However, a few minutes later Griffs randown the runway and into the arms of his parents.

"Just another dirty German trick," was Griffs's comment on the quarantine incident.

From the dock Griffs and the welcoming party were escorted to

WINS AGAIN

at Ascot Speedway, Feb. 10, 1924

Read the following extract from yesterdays press:

TIMES

"Ralph de Palma whole-hogged the show at Ascot again year winning two races and setting a new lap record for the edification of a proximately 20,000 persons who spent their afternoon and some change at George Bentel's open-faced fun and frolic emperium. With a Miller go-fast rebalanced to slide around the turns with a minimum of fort, the Italian star is now able to show his tail to Horey and Lechlic his only possible rivals in the field, without a great deal of effort."

EXAMINER

"Ralph de Palma, veteran of many a speedway classic, was the lan of the day on the five-furlong, risky, dirt course. The Italian speeds won the two big auto features on the card and broke his own track result for one lap, which made it a profitable afternoon for him.

"De Palma led at the end of the first lap and every lap therefore until the twenty had been reeled off. His time was 11:02. It was man of an exhibition than a race."

ILLUSTRATED DAILY NEWS

"Like a child within the confines of his own nursery where he being himself at play, was Ralph De Palma yesterday in his wild rides at the tect Speedway. His track mates might well have been the highly had toys of a childish sanctuary where its commander treats them as being the likes of his own whims.

"Yes, De Palma was at home yesterday, and, although the "Grand Old Man" of the racing game has grown gray in the pilot seat of a moter as he is still young at his trade—and racing is his trade. It was only at the start of two races yesterday that his opponents of the castor-oil path were able to keep up with him; for at the finish of all two 'Smiling' Ralph was far ahead—toying with the boys and enjoying himself immensely, also with 23,000 others who acclaimed him as their idol."

"MOBILITE" positively increases mileage. Decreases wear and tear. Eliminates the need of froquent overhauling. Gives sweeter running, Ensures fewer gear changes. Puts an end to car bonization troubles.

IT IS THE "100 PER CENT EFFICIENCY FUEL" which no discriminating motorist can afford to do without.

EXCLUSIVE DISPATCH)

SAN FERNANDO, Feb. 11.—A cyclone of boxing contests is promised in the whiriwind menu that is to be dished up by the Athletic Club at the pavilion. Wednesday night. In the main event Battling Ward of Lankershim has been induced to take another chance and will attempt to defreat John Villardie, the shifty Kansas City boxer. Fans expect this encounter will be just one thrill after another. The semi-wind-up will be a return bout between Young Ketchel and Bert Myers, the Coast welterweight champion.

nis last car, is a whole lot too good for the other birds out at Ascot and Brother Hentel will either have to supply Fred Horey and Kid Lickile-der with newer and faster gobuggies or else step out and dig up somebody else to seek the scalp of the gray-haired speed demon. Just at present kalph seems to be able to win just exactly as he pleases. In all probability Bentel will do both. There are fast cars to be had for the dirt-track demons and in addition there are several top-notch dirt-track demons and in addition there are several top-notch dirt-track men who have not yet appeared at Ascot. There is our old college chum, Louie Disbrow, whose appearance has been heralded but who hasn't showed up as yet. He is a first-class driver. Then there is this wild Swedish person, Sig Hangdahl, who is supposed to be quite without a peer on the real-estate ovala. Either of them will draw a crowd against De Palma, and Horey, with a fast car, is likely to beat any of them.

Did anybody happen to look through the summary of the interclass meet at Pomona College last Saturday and notice the performances in some of the events? Apparently the Sagehens are not going to be left in the soup this year by anybody. Reasonably good performances were hung up in practically all events but there were two or three that were considerably more than just good.

Pomona showed last Saturday and natice there were two or three that were considerably more than just good.

were considerably more than just good.

Pomous showed last Saturday a young man named Maxwell, who was kept somewhat in the shade last season by the presence on the team of Charley Daggs. Young Mr. Maxwell in the class meet ran the high hurdles in 15 3-5 seconds and the low hurdles in the sensational time of 21 1-5 seconds. Incidentally, young Mr. Prishie broad jumped 22 feet, 8 inches also. Pomona will be heard from on the cinders.

There are a lot of rumors to the effect that Duke Kahanamoku, the great Hawaiian swimmer, is really trying to spring a comeback. They tell us that the Duke isn't talking about it much but is really training for the first time in a good many years and has designs on winning the Olympic 100 meters for the third successive time. If the Duke can do it he will accomplish something unheard of, but everybody would like to see him do it.

HUNT SEEKS RESULTS OF OIL BATTLE

> Inquiries of South Dakota Governor; High Prices of Gasoline Annoying

PHOENIX, Peb. 11.—Gov. Hunt today wired Gov. McMaster of South Dakota, askins how South Dakota has been prospering in its efforts to regulate gasoline prices by State entry into the business. Gov. Hunt referred to the rise of gasoline here to 26 cents, excluding the 5-cent State tax, and asserted that 50-cent gas is rumored. He added:

"This recalls the situation last year when outrageous prices were charged. The oil companies probably think the public has forgotten the matter by now and think the time has arrived when they shall be charged all the traffic will bear. I disagree with them."

An effort is being made by the county atterneys office to solve the mystery of the mortal wounding of Jose Gonzales, who died in a Phoenix Hospital. He was shot by an unknown person while walking on the railroad grade near Wickenburg last week. Murder is charged.

Millions Appropriated for **Education Funds**

New English Teachers Are Needed in Islands

Needed in Islands

[BY CARLE AND ASSOCIATED PRESS]

MANILA, Feb. 11.—Vice Gov.—
Gen. Eugene R. Gilmore, who is ax-omico Secretary; of Public Instruction, left here today aboard the steamer President Taft for a three months' visit to the United States in the interest of education in the Philippines.

More than \$7,000,000 for the support of public schools this year, was appropriated by the Legislature which just closed its session, he said, in summarizing the situation in regard to education in the insular territory.

With this fund, together with appropriations by the provincial and municipal government, work in the public schools will continue unimpaired. There will be available \$200,000 for erecting new school buildings. Children numbering 1,100,000 attend the public schools and the school buildings number about \$600.

All work in the public schools is carried on in English, the vice Governor-General declared, pointing out that the bill to make the teaching of Spanish compulsory in the high schools, introduced the day before the Legislature adjourned, failed of passage.

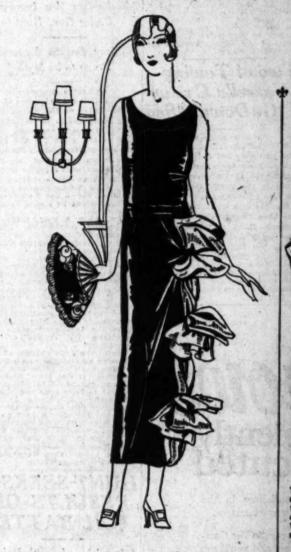

"Approximately 400 Americans are employed in educational work, mostly as teachers of English in the high schools," he said, "sixty additional American teachers will be needed this year, especially for teaching English and training native teachers. My visit to the United States chiefly is for the purpose of securing these teachers and assisting the Bureau of insular Affairs at Washington, which has all applications passed upon, "The usual entrance salary is \$500 per year and traveling expenses to the Philippines. Other salaries of teachers long in the service reach the maximum of \$1500 per year. Male teachers especially are desired and only the more experienced will be employed.

"The Legislature has authorized the Secretary of Public Instruc-

Teacher-Citizen Friendship League, which proposes to affiliate more closely the teachers of the public schools and the civic organizations of Les Angelea with a view to disseminating and supporting more broadly the program of the World Federation of Education Associations. Specifically, the prime purpose of the league is to organize the public schools as an active agency for world peace. "Peace," says the prospectus of the league, "is but another name for co-operation. World peace means world co-operation. World co-operation is the combined result of community co-operation, which means unity among individuals. World peace then rests on the individual.

The need is practical support of the program of the World Federation of Education Associations. Hence this project for a model plan in Los Angeles to serve as a parent organization for branches throughout the globe."

A letter from President Coolidge to Miss Jeannette Jacobson, president of the league, was read in part as follows:

And Speaking of New York-

Many Californians learn about Suncrush for the first time from their New York friendsalthough Suncrush is a Los Angeles product.

To date New Yorkers have consumed over half a million gallons of Suncrush orangeade -and they're demanding more. Far from the golden groves of California, New Yorkers have found Suncrush Orange is the pure juice of ripe California oranges, crushed at the groves, ready for instant use.

When you go to New York you will find Suncrush served on the diners of the Pennsylvania Railroad - at the Polo Grounds - it appears on the menus at the Pennsylvania, the Commodore, the Lambs Club, the New York Athletic Club, at Moulin Rouge and the Mouquin restaurants-you will find Suncrush on sale at drug and grocery stores generally, from great department stores like Macy's to exclusive fashionable grocers like Charles & Co.

The enormous demand for Suncrush products from all over the country is out of all proportion to our present capacity to produce. The pressing need for additional facilities is being met by a capital stock issue of this corporation, originators and exclusive owners of the Suncrush process of crushing citrus fruit.

California Crushed Fruit Corporation

Suncrush stock is being offered in groups of two shares of 8% cumulative preferred (par value \$10 each) with one share of common (as a bonus) at \$20 for the group of three. until the world can absorb the increase.

The statement that indicates that Katanga is a high-grade producer which cannot keep up its as is not based upon the facts, as we have them which show that the Katanga deposits have a I per cent better average than the sichest mine in Arisona, and have ten tons in reserve for every ton in reserve in this same mine.

The important fer of foreign competition is that when all the copper that is produced cannot be sold readily, even though the difference may be small, the low-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer and thus establish a low level which the high-cost producer important feature is the feeling that even the high-cost level which the high-cost level whic

An Investment in Conservation

Allowing of the utilization of millions of tons of raw materials which, until this process was invented, have been considered absolutely worthless; and transforming them into materials of everyday use for which there is an ever increasing demand, a steady market and an assured sale at a good round profit.

The Standard Metal and Chemical Corporation announces that it has a process, covered by eight separate patents, that will solve the problem of the age-the conservation of materials that are now going to waste. The men behind are 100 per cent in every respect, having put their own money into the company and having successfully solved all problems to date.

The Standard Metal and Chemical Corporation is a going concern with a plant now almost completed, after spending more than \$400,000 in developing its patent rights. Government records show that two of these men have been recognized as the country's greatest authorities in their line. There is no promotion stock. More than-half the issue is already subscribed. Note the possibilities of profit:

ESTIMATE OF COSTS AND PROFITS, WHICH HAS BEEN SUBMITTED TO AND PASSED UPON BY FIVE OF THE COUNTRY'S RECOGNIZED EXPERTS

Cost, per ton, of raw material, administration, executive, mechanical and overhead costs, including amortization, taxes, insurance, interest, freights and selling....\$16.99 On the basis of 90% yield, the selling prices at present, of these reclaimed materials, would be\$39.42 This shows a net profit of \$22.43 per ton.

Now figure what the profits would be from a mill of 100-tons daily capacity, running without interruption. Then figure it on a 300-ton daily capacity mill.

Now, then-here is a proposition which seems to have possibilities that compare most favorably with many of the great outstanding commercial successes of the United States; here is a proposition which is founded on the basic principles of conservation and economy; a proposition which offers not only what appears to be a certain promise of large returns, but a proposition which offers also the additional attraction of absolute real intrinsic value to assure security to the investment.

The Standard Metal and Chemical Corporation's plant is nearly ready to begin op-erations. Additional capital is needed. The officers have invested to their individual limits, and now come to the public for operating capital. The thing is proven, and is accepted as basic and good by those who should know. We want to give you more information. We want to talk to you and tell you about who we are and what we have. The coupon will bring that information to you without any obligation on your part.

This movement of business could not be regarded with satisfaction if it were not accompanied by a constant demand for new capital. If the particular enterprises are adequately financed for the time to being, there are many others which feel the need for the improvements and extensions which are final evidence of substantial growth. The same day which growth growth growth. The same day which growth. The sam

CAPITAL IS BUSY

CAPITAL IS BUSY

Money available for permanent investment has small chance to be idle in this age. Even before it is gathered into funds of adequate size it is tempted by an offer and forthwith put to work.

Certificates that are called bonds or notes, coupons that represent interest earned, dividends that come from profits, and savings that come from wages flow to gether into pools from which they are quickly drained by reinvest, and the demand for coupons, savings books, and are called wealth. They certify that all classes of people are making their contributions to wait instrumentalities that keep funds employed in the production of the things that people want. If business prospers in 1924 as it did in 1923, the demand for capital will not only be constant but will increase. The great wealth-producing enterprises must expand. One of the smaller demands in the list will serve as an illustration.

Every Audit Should Be

A Detailed Audit

The leaders in practically every field of business now regard the Detailed Audit as an absolute necessity. The Reserve Cities Bankers Association, and most of the Credit Associations throughout the country, stand on record as preferring it to the Balance Sheet Audit.

Offering an expert and independent study in detail of the items represented in mass by balance-sheet figures, the Detailed Audit not only verifies, but clarifies. It digs beneath the figures and reveals the buried facts.

buried facts.

Every audit should be a Detailed Audit. It brings to light avoidable leaks and wastes. It finds the flaws in accounting, in credit and collection methods. It presents the cause, and the effect, of financial policies. It points to possibilities for greater profits. Free from the qualified statements of the Balance Sheet Audit, the Detailed Audit is the ideal basis for credit. Complete in its presentation of the facts behind the figures, it is the only basis for executive plans and action which lead to progress and success.

Organizing a Company?

The success of your financing and the progress of your business depend largely upon the form of your organization. Whether your Company should be a corporation or a "common law" company; its capitalization; kind of shares, negotiations for permit to sell securities, etc., are matters concerning which organization specialists may render valuable aid. Your organization matters can be promptly and efficiently handled through this office, all legal work being supervised by an organization attorney of many years' experience. Do you need—

Capital for Financing?

My financing service is a specialized service for organizers desiring to quickly place their investment offers in the Los Angeles field only. Every new project cannot succeed by this or any other plan, but if your proposition is meritorious you can expect quickest and surest returns only when your investment offer is properly presented and "followed up" by salesmen.

Before organizing your company or deciding your financing plans, you are invited to consult with me personally. Many years in Los Angeles and many pleased clients attest to the satisfaction of my services.

Improvements of the northwest corner of Seventh and Main streets with a height-limit office building costing in excess of \$2,000,000 will be made within the next six months, it was announced yesterday by R. H. Raphael, president of the Raphael Realty Company and a member of the Seventh and Main Realty Company. Preliminary plans on the structure will be ready within a few days. They are under the supervision of Curlett & Beelman, architects.

According to Mr. Raphael, legal papers are now being prepared for the incorporation of the Seventh and Main Realty Company at a capitalization of more than \$2,000,000. When these negotiations are closed it is the intention of the owners and builders to start preparation of plans and to commence building operations.

The site, which has a frontage of 170 feet on Main street and 140 feet on West Seventh street, was purchased by Mr. Raphael and Lemuel Goldwater a year ago, when the reported consideration was given at \$1,000,000. Realty arrangements in this transaction were handled by R. A. Rowan & Co., real estate firm, which represented the estate of James Moses of New York City, owner of the property.

Details of the building syndicate and its members were not dis losed, but it is understood several and Palmyre. Ill., during the Civil War. Mrs. Gailey also has in her home here the flatiron with which she pressed Lincoin's trousers after the garments had been let down by her aunt. The iron has been in her family more than 100 years. Other Mohrovians who remember the Emancipator are Alma Pyott, 97, Monrovia's oldest citizen, who lived next door to Mrs. Lincoin in Chicago, and Sewall A. Another important realty and building deal is the contemplated erection of a Class A building on the Sherman property on the east side of Main street between Fifth and Sixth streets. The proposed structure will be erected by the F. W. Woolworth Company, which has taken a long-term lease on the property.

ORGANIZED BAND

Those already under arrest, Mr. Gailing believes, are members of a well-organized band of rum-runners which covers Southern California. The boat, one of the fastest in local waters, is said to have been running liquor into Southern California for the past two years. She ran into the trap laid for her by Federal agents just at daybreak yesterday. The boat approached a wharf on the Malibu Ranch, about ten miles north of Santa Monica, where four prohibition agents, heavily armed, were concealed. Just before she docked, according to officers, Mrs. F. C. Neal took up a position on shore and signaled to the vessel.

Immediately after the boat drew up to the dock the officials leaped on deck and called to the crew to

show the ruling powers in Nippon are fearful of seething movements among the people and are taking extraordinary precautions to avert upheavals which might turn into a real political earthquake.

Since the Washington treaties guaranteed peace in the Far East for ten years there has been as inclination to turn attention away from that area and to think more of the problems of Europe which americans are now striving to solve. But in the future of this country the Orient will be a vital factor and we must not overlook the great movements there. None has been more important than that which is taking place in Japan now.

SEVENTH AND DLIVE Spring and Temple Pice and El Melino

Give the children a piece of WRIGLEY'S after every meal. They all like something sweet after eating. WRIGLEY'S has the sugar to satisfy this craving and the chewing of the gum will help digestion, clear their teeth of food particles and act as a pleasant, antiseptic cleanser of mouth and throat. You would "give almost anything" if the children would keep their teeth

after every meal

and have the very reward itself do the work! Try it for a month and observe results. Three cents per day per child will pay the bill and make them happy!

ville. It is a case of real, old-fashioned, low-brow and therefore, enjoyable, vaudeville down there. Never knew there was anything funny about the war until I saw and heard Johnny Burke in his soldier menologue. He wears khaki and talks real trench lingo, and I feel, somehow, that he really saw action; he says his stuff is copyrighted, but I'm sure that Caesar did that on some of his war jokes just before the Rubicon. But his delivery is great, and his is a knockout with the audience. Besides, a lot of his material really is new and anappy. Benny Leonard and Herman Timburg ought to be censored for throwing that boxing glove into the audience. It nearly caught two people who were wearing glasses yesterday. Besides, as Winifred Hart, who was with me, remarked, 'Brickbats should be reserved for the audience, it's hurling insult after injury when you have to listen

Newly Elected to Stardom

PLAYDOM

"ANNA CHRISTIE"

PAULINE LORD IN TRIUMPE AT THE MAJESTIC

has come to stimulate and thrill the theatergoer at last. It is late indeed, I recommend it to you with a will, for I feel that you will be overlooking something truly and vigorously fascinating if you miss seeing "Anna Christie," which, with Pauline Lord in the role she played in New York, is now on the stage here. It is Eugene O'Neill's most popular, and I believe, too, most human play, and it has all the consuming interest of a living picture of life etched right before your eyes.

We have long heard the rumors of the magnetic power of this play. Many, in truth, have already seen it on visits to New York. Others know the screen version in which Blanche Sweet renewed her success and fame. But none can testify any better than those who saw the opening performance last night at the Majestic what a splendid thing is achieved in its creation and what a spell it can have in a vivid and energetic interpretation.

"Clever men have at times suc-ceeded in devising tax methods un-der which the citizens yielded the der which the citizens yielded the government a revenue without knowing it," he observed. "But the sales tax doesn't work that way. When a fellow goes to a picture show and pays a certain admission fee and an additional fee for taxes he knows he is being taxed. And the sales tax, which affects nearly everything one buys in Canada, is operated on much that principle. The consumer knows all about it and the knowledge is not devoid of twinges of pain.

The Canadians are finding their tax burdens as irksome, as are their cousins in the United States, and are equally insistent on their reduction, says Sir George Bury of Montreal and Vancouver, former vice-president and general margager of the Canadian Pacific Railroad.

Sir George, who is accompanied by his wife, arrived in Los Angeles yesterday for a vacation, "in a warm climate," as he expressed it. They are guests at the Biltmore. "I haven't any important job any more and nothing I can say would be of particular interest," objected the Canadian when a in terview was suggested. Sir George reports that conditions generally in Canada are good and that the country is back on a normal basis after passing through the reconstruction period following the war.

"Our wheat farmers last year raised a tremendous crop and Canada is now the greatest wheat exporting country in the world. There were forty-four locean-going vessels in the harbor at Vancouver when I started south, many of them carrying wheat cargoes, and it is estimated that some \$6,000,-000 bushels of wheat will be shipped from that port during the present year.

CLIMATE IS BEST

Sir George took occasion to express his delight with California winter climate. "I have visited every winter resort on the globe," he said, "Florida, the Riviera and others, but I find that this surpasses them ali."

He was surprised when informed that Southern California, due to the efforts of the Ail-Year Club, is gaining in popularity as a summer resort also, and that before long there will be no cessation in the tourist traffic from January to January. "But I thought it wasterribly hot here in the summertime because it's so far south," he said.
